Varun Rajesh Parkar

Finance & Business Analyst | MBA Candidate

☎ +91 99011 27202 ✉ 🏠 Mumbai Hwy, Kamkole, Telangana 502345, India

PROFESSIONAL SUMMARY

Results-driven MBA candidate with a strong foundation in corporate finance, equity research, and business analytics. Proven experience in financial modeling, portfolio management, tax audit, and client advisory across multiple internships. Proficient in Excel, Power BI, Python, and the Bloomberg Terminal, with a track record of delivering data-driven investment insights and closing high-value deals. Seeking to leverage analytical rigor and stakeholder management skills in demanding finance and consulting roles at leading global firms such as UBS, KPMG, McKinsey, and Deloitte.

EDUCATION

Master of Business Administration (MBA)

Woxsen University

2025 – 2027 (Pursuing)

Bachelor of Commerce (B.Com)

Bangalore University

2022 – 2025

PROFESSIONAL EXPERIENCE

Portfolio Manager — Self-Managed / Client Advisory

Feb 2026 – Present

- Advised clients on trading strategies in market derivatives (futures & options), aligning recommendations with individual risk profiles and return objectives.
- Built and managed diversified investment portfolios across equity, debt, and alternative asset classes to support long-term wealth creation.
- Monitored market trends, macroeconomic indicators, and derivative positions to guide timely, informed trading and rebalancing decisions.
- Collaborated with clients to design personalized wealth diversification strategies, balancing risk-adjusted returns with liquidity needs.

Tax & Audit Intern — SSB and Associates

Jun 2026 – Jul 2026

- Handled end-to-end company and individual income tax filing for multiple clients, ensuring 100% accuracy and on-time compliance with statutory deadlines.
- Managed GST filing, reconciliation, and return processes for a portfolio of SME clients, reducing reconciliation errors through standardized checklists.
- Maintained books of accounts and processed day-to-day transactions; assisted in cost audit assignments by verifying cost records and compliance documentation.

- Supported trust audit engagement for one of India's largest trusts, reviewing financial statements, donor restrictions, and regulatory compliance records.

Management Intern — AK Board Agency, Bangalore

Feb 2025 – Apr 2025

- Managed sales operations, stock inventory reconciliation, and company accounts; streamlined reporting processes to improve monthly close efficiency.
- Contacted prospective B2B clients, prepared proposals, and closed deals resulting in a measurable increase in sales inflow.
- Reviewed existing books of account and recommended changes to financial practices that improved internal control and cash-flow visibility.

Business Development Intern — Virtue Infra Builders, Bangalore

Feb 2023 – Apr 2023

- Led business development and land acquisition activities for infrastructure projects; identified, negotiated, and finalized land deals with clients and government stakeholders.
- Advised clients on investment opportunities including REITs and structured funding options, translating complex financial concepts into actionable recommendations.
- Closed 3+ land purchase deals exceeding INR 30 lakh in value, directly contributing to company revenue and expanding the project pipeline.
- Managed multiple client portfolios, guiding investment decisions and personal financial planning; built long-term relationships ensuring repeat engagement.

ACHIEVEMENTS & HIGHLIGHTS

UBS Investment Banking Virtual Experience Program
Forage / UBS | Completed 2025

Completed a simulation-based certification covering M&A deal analysis, company valuation using comparable companies and precedent transactions, and pitch book preparation. Gained practical exposure to the investment banking workflow and client deliverable standards expected at tier-1 global banks.

- Closed 3+ high-value land deals (INR 30L+) during Business Development Internship, directly impacting firm revenue.
- Trusted with audit engagement for one of India's largest trusts, demonstrating high reliability and attention to compliance detail.
- Built interactive Power BI dashboards for stock valuation and financial analysis, enabling visual, data-driven investment decision-making.

PROJECTS

Personal Retirement Fund Strategy & Tax Analysis
Feb 2025 – Mar 2025

- Developed a comprehensive retirement investment plan by researching asset classes including FDs, REITs, and mutual funds; optimized post-tax returns using ELSS, PPF, and NPS instruments.

Stock Valuation & Financial Analysis Dashboard (Power BI)
Sep 2025

- Built interactive dashboards to analyze company financials, perform valuation using key ratios (P/E, EV/EBITDA, ROE), and visualize trends for data-driven investment insights.

Business Model for Fashion Brand
Sep 2025

- Led problem identification and conceptualized a sustainable solution for the fashion sector; developed a validated Business Model Canvas centered on ethical sourcing and operational efficiency.

Legal Chatbot – Patent Filing Automation (Python)
Sep 2025

- Developed a Python-based legal chatbot to assist with patent filing queries, automate document guidance, and improve accessibility to legal information for early-stage inventors.
